

Designed for Mini and Junior riders, the INSIDE LINE has a narrower body than an Adult size model.

Extruded and then CNC machined these pedals are ideal for younger riders who require a smaller platform but still insist on great grip and control.

We used fixed-length pins for easier setup and durability. Riders can still add/remove pins to customise the level of grip. (12 pins per pedal)

- CNC Machined Alloy Body
- Sealed Bearing with LSL Bushing
- 9/16" Cr-Mo CNC Machined Axle
- Anodized Finish (Red, Grey, Black)

INTENDED USE // BMX Race, MTB

SIZE // 88 x 100 x 17mm

WEIGHT // 321g
